GOLDBERG FAMILY TV

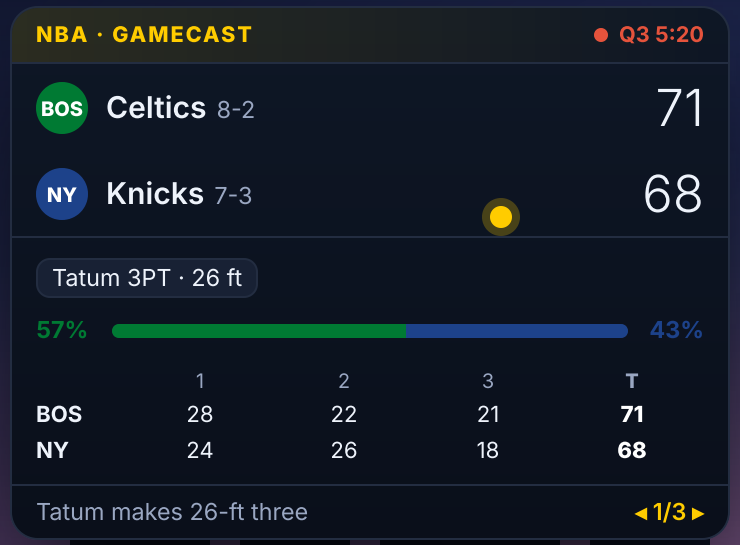

Sports Overlays

Live Gamecast and Prop Tracker, floating over whatever you're watching — Netflix, YouTube TV, anything. Every sport, every way to customize it.

- Gamecast panel
- Prop tracker
- Over any app
- On your remote

Gamecast, over your movie

Pull it up on the **left side** and keep watching. It tracks your starred games live — score, clock, and the situation for that sport.

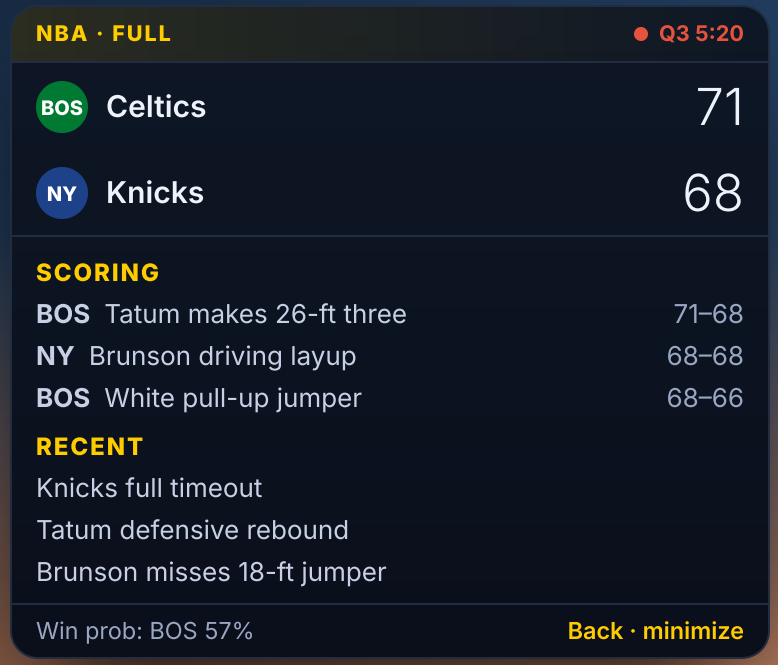

Win probability
live odds bar, plus the quarter-by-quarter line score

OK → expand
opens full scoring + play-by-play (next page)

◂ ▸ switch games
flip through your starred games, or let it auto-cycle

Press OK to go deep

Expand any game into **scoring plays and live play-by-play** — a few seconds behind the broadcast, even for games you don't have access to watch.

Scoring plays
every bucket with the running score

Recent plays
the live feed, refreshed every ~12s

● Q4 3:12

OSU	Ohio St	27
MICH	Michigan	24

2nd & 7 · OSU 35

Rivalry game, 4th quarter ◂ ▸

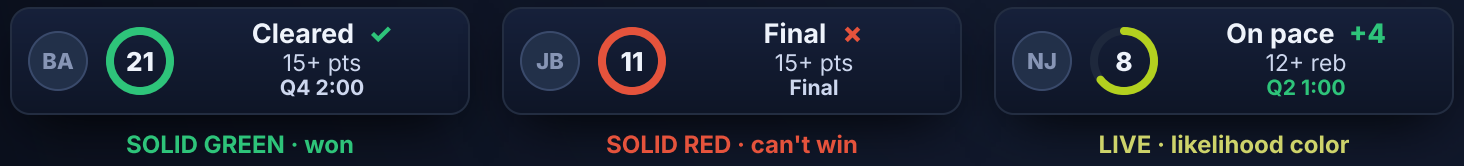

Prop tracker, bottom-left

Tell me your player props and a small card parks on your side of the bed — live count, and a ring that shows how **likely** it is to clear.

Ring fill = how close to the line.
Ring color = live likelihood: pace × time left, pulled back for blowouts & foul-outs. Red → green.

+2 to go · live clock · score — a small headshot so you know who at a glance.

SOLID GREEN · won

SOLID RED · can't win

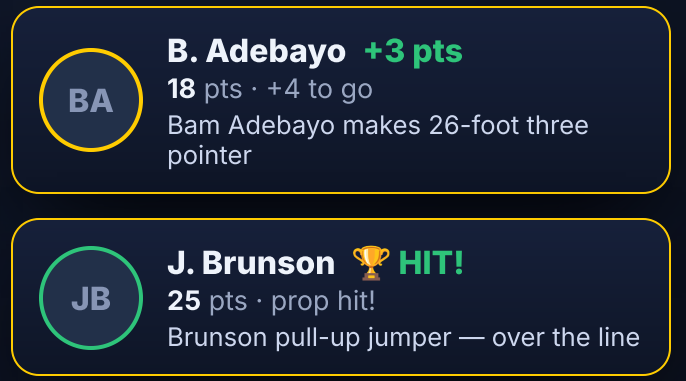

LIVE · likelihood color

Show one, a few, or all

Cycle one prop at a time at your chosen speed, show a few at once, or stack them all in the corner.

When a tracked player scores, a card **rises from the bottom-left** with the play:

⭐ Star games

Pick which games feed the Gamecast — set it once at the start of the night. Star any game, even ones you can't watch.

⭐ Star games | 🎮 Gamecast (3)

🔁 Switch: Manual or Auto

Flip between starred games yourself with ◂▸, or let the panel auto-rotate every 10, 20, or 30 seconds.

Manual | Auto 10s | Auto 20s | Auto 30s

🪧 Prop card display

How the floating prop card shows when you have several props going at once.

Cycle 10s | Cycle 20s | Show 3 | Show all

☰ Your remote

One button does both, from inside any app:

Short press → Prop card | **Long press** → Gamecast

Both overlays sit on the **left** — your side of the bed.

That's the sports layer.

Gamecast + Prop Tracker · over any app · every sport · all free data
